### General notes:

Immediately remove clothing contaminated with the product. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. Remove breathing apparatus only after contaminated clothing have been completely removed. In case of irregular breathing or respiratory arrest provide artificial respiration.

#### If inhaled

Supply fresh air or oxygen; call for doctor. In case of unconsciousness place patient stably in side position for transportation

### In case of contact with the skin

Immediately wash with water and soap and rinse thoroughly.

# In case of eye contact

Rinse opened eye for several minutes under running water. Then consult a doctor.

#### If swallowed

Immediately call a doctor. Drink copious amounts of water and provide fresh air. Immediately call a doctor.
